Acknowledgments

We want to give a special thank you to all of our students and contributors from around the world for making Serbian Language Podcast such a beautiful global community.

We are proud to have students from 6 of the 7 continents. And who knows, maybe one day we will have a student from Antarctica too!

We appreciate you, are here for you, and are proud of the interest you have in Serbian language, and for the progress you are making. Thank you for having an interest in the country of Serbia; a small country with a big heart and a lot of love to give.

Hvala Vam puno!

What started out as a dream is now shaping into a wonderful reality.

Why learn Serbian?

The Serbian language is spoken in the former Yugoslavia (i.e. Serbia, Bosnia, Montenegro & Croatia)

Though regional dialects do exist, the most prominent of which is Croatian, Serbian is mutually intelligible in all of the former Yugoslavia.

Additionally, learning Serbian will enable you to have authentic experiences.

This means that if you learn Serbian you will have opened the cultural door of Eastern Europe, a place rich with history, a beautiful geography, and colorful people.

Given the connection Serbs have to their language, speaking Serbian will add a very important layer to your interactions with Serbs, affording you an opportunity to delve deeper into interpersonal relationships, literature, travel throughout the country (and surrounding region), and an ability to acquire cultural fluency, which will empower your language skills and connections to a fascinating people.
The Serbian diaspora

The Serbian diaspora is not solely confined to Serbia or Eastern Europe

Serbs live all over the world and many global cities have large populations of Serbs (i.e. Chicago, Stockholm etc.), which will provide you with ample opportunities to practice.

KEY POINT:

Unlike some languages where native speakers are reluctant to speak with non-native speakers in their language, Serbs will be elated to speak with you in Serbian and will be thrilled that you have an interest in the Serbian language. The value of this cannot be overstated.
“Why learning Serbian is not as difficult as you may think”

In the video Cam explains why learning Serbian is not as difficult as you may think, and gives a first-hand account of what it’s like speaking Serbian in Serbia.

ABOUT THE HOST

The host of “The Broadcast Show” is “Cam the Broadcaster” one of our contributors. He is an American who lived in Serbia and speaks Serbian language.
How to learn Serbian

Once upon a time if you wanted to learn a language you had to

- find a local class or institute
- sign up for classes
- drive there
- purchase books
- repeat this process

All this is very expensive, time-consuming, and impractical at best or unavailable at worst

Furthermore, the considerable majority of programs don’t teach according to your needs, they teach according to their systems (which are seldom personalized or comprehensive enough to thrust you deep into the mechanics of the Serbian language).
But not anymore!

With Serbian Language Podcast

For the first time ever you can learn Serbian wherever you are, whenever you want!

Over 100 Instructional Lesson Videos

★ Engaging videos
★ Downloadable PDF Study Guides
★ Easy-to-follow instruction

Most programs provide a very basic or general explanation of the Serbian grammatical system.

⭐⭐⭐

Our Instructional Lesson Video Series

Covers everything sequentially so you can know where to begin, why, and learn how to connect what you are learning in one video to the next.
Many of our students have reported that they learn more in 10 of our videos (approximately 10 minutes each) than they have learned in 6 months of dedicated Serbian study with other programs.

How is this possible?

Because learning is all about synthesizing systems and seeing the “through-line” behind and among grammatical principles that are actually quite simple in nature. However, when these principles are taught out of order, or not at all, then confusion and frustration will set in.

We are the first program

To go to great lengths to bring the best language learning instruction for the Serbian language and high quality content to you with just a click of a button.
